**Seeks Neutral Rights  
On Seas Without  
War Danger**

**Push Quiz Into Sinking Of  
Spanish Warship**

London, Nov. 23.—(AP)—Maritime Great Britain, determined to keep out of the Spanish Civil War and at the same time guard with guns her right to sail the seas, tonight wrestled with these developments:

1. Naval reports that an internal explosion and not a foreign torpedo damaged the Spanish warship, Miguel De Cervantes in Cartagena Harbor.

2. Fascist Gen. Francisco Franco's failure to reply to renewed British questions on what he would do to protect neutral shipping.

3. French reaction to a reported British-Belgian warning they would aid France if she got into a war by supplying arms to Madrid.

4. Foremost in the anxiety of British officials was the question of just what blew up in the Miguel De Cervantes—a torpedo from a foreign submarine as Madrid charged, or some internal explosion.

Meanwhile Foreign Secretary Anthony Eden in a speech before parliament warned that the Empire would keep the peace by force if necessary, but that the greatest efforts would be made to avoid any mishap which might turn into international incidents.

His remark that British merchantmen would be protected by the British fleet outside the three-mile territorial limit was taken as an indication vessels might be warned to stay away from Spain until Franco replied to the repeated questions from Ambassador Sir Henry Chilton.

Specifically, Great Britain sought to learn whether Franco would grant her request for "safety zones" for neutral vessels in Spanish ports.

At any rate, Eden said, British ships must be prevented from carrying arms to Spain. England and Belgium, a French Leftist spokesman in London said today, warned France they would not come to her aid if France should become involved in a war through sending arms to Spain.

The spokesman, Jean Longuet, socialist political leader, said this was responsible for Premier Leon Blum's recent assertion that he would scrap the non-intervention agreement and aid the Madrid government—"if Britain agrees."

## Seattle Mayor Is Ready for 'Fight'

Seattle, Nov. 23.—(AP)—A recall movement against Mayor John F. Gore, accusing him of inciting acts of violence in a labor dispute was launched today but the florid-faced attorney said he welcomed a fight over his administration.

The charges of misfeasance and violation of the oath of office were contained in a petition signed by 15 women and 11 men.

The recall petition charged that Gore, addressing University of Washington students Oct. 16, attempted to incite them to violence by lauding "methods of violence" attributed to the Industrial Workers of the World.

He was quoted as saying "days in this country are going to be much more interesting than the days of the French revolution."

The petition alleged Gore "by his shouts and gestures" incited "a mob" to acts of violence last August when a strike of editorial employees was broken on the Seattle Post-Intelligencer by the American Newspaper Guild.

## Bombs Drop Fire in Madrid

While shells from Nationalist batteries poured into Madrid causing frightful bloodshed and destruction, incendiary bombs dropped from airplanes, started many fires to add fresh terrors for the beleaguered populace. This photo shows smoke billowing from buildings in the city's downtown district while, in the foreground, a line of trucks and soldiers forms a barrier past which civilians may not advance under threat of being shot as looters. The picture was flown from Madrid to London, radioed from London to New York, and telephoned for distribution in the United States.

## EMPLOYEES GET SECURITY ACT BLANKS TODAY

**Government Ready To  
Number 26,000,000  
Workers**

**Say "Big Business" Is Coop-  
erating In Pension System**

Washington, Nov. 23.—(AP)—Ready for the stupendous job of assigning "account numbers" to 26,000,000 workers, government officials said tonight business in general and big business in particular was cooperating heartily with arrangements for the federal pension system.

Tomorrow morning postmen will begin delivering applications for the accounts to employees, on the basis of reports their employers were required by law to make by last Saturday night. If an employer reported one or a hundred people in his hire, as many forms will be delivered to his shop with a few to spare. The employees have until December 5 to return their questionnaires.

No data was yet available on how many employers refused to cooperate. Revenue officials and Jesse M. Donaldson, deputy first assistant postmaster general, both expressed gratification for cooperation from business.

The cards for employees contain 16 spaces, for such data as date and place of birth, sex, mother's maiden name and the signature. Detailed instructions are given on the back of the card, with a suggestion to consult the local postmaster if more information is wanted.

Detachable by perforation, another card explains what workers are ineligible, under the social security act, and how the pensions will range.

Once the applications begin returning, each will be forwarded to a nearby first class postoffice. Clerical staffs have been set up to transcribe the information to a record for the security board; one to be kept several months at least at that postoffice; and an "account card" to be returned to each individual worker.

## Ask Order on Use Of Slot Machines

Joliet, Ill., Nov. 23.—(AP)—Attorneys for the Crown Supply company sought a permanent injunction in circuit court today to restrain police from interfering with slot machine operations here.

A brisk business in nickels and dimes has been enjoyed by the company since last April, when Judge Edwin L. Wilson issued a temporary order which made the authorities powerless bystanders to repeated acts of violence.

Disappointed players were able to smash machines and get their money back without fear of arrest. The same immunity was given all persons connected with the profit end of the machines.

One death—that of Lawrence J. (Butch) Crowley, 48—was laid by police to warfare between slot machine syndicates, although Crowley denied it before he died of bullet wounds.

Two young men shot him down in front of his home Oct. 7.

Judge Wilson began trial of the case today on its merits. The company, operating about 150 machines in Joliet, claimed their legal purpose was to vend mints and gum.

Mayor George T. Jones, the chief of police, the sheriff and all their agents were party defendants in the suit, trial of which was expected to require a week.

Another denied a review to Illinois communists in their effort—now rather belated—to compel state officials to place the names of their candidates for president and vice-president on the ballot for the November 3 election.

## Supreme Court Holds State's Employe Act To Be Constitutional

**PUSH SEARCH  
FOR MORON IN  
CHICAGO WARD**

**Political Group Puts  
Up \$500 Reward  
For Capture**

Washington, Nov. 23.—(AP)—Constitutionality of the New York unemployment insurance act was upheld today by the supreme court in an evenly-divided decision which gave fresh hope to supporters of pending New Deal legislation.

The New York law, similar to that already passed in 16 other states and the District of Columbia, was enacted under the federal social security program of taxing employers for the benefit of those out of work.

Last session the division was frequently six to three against New Deal legislation, and on other similar issues, Justice Stone, who was absent today because of disentry, has usually voted with the court minority, which led many to believe he would have made the vote today five to four for the law.

If a new court line-up should result in favorable decisions on pending New Deal cases, it might have far reaching effects in staying the current drive in some quarters for an amendment to the constitution.

At Tampa, William Green, president of the American Federation of Labor, said, the ruling was "a great victory for labor."

He added that the decision "encourages labor to believe that the National Social Security Act will be held constitutional."

Chairman Winant of the social security board promptly urged states which have not enacted similar laws to "proceed quickly" to do so.

Legal observers suggested that even if the unemployment insurance section of the federal act should be held invalid, the states still could proceed with their own programs. The federal legislation was designed to encourage states to enact benefit laws of their own.

Under the New York measure, employers of four or more persons, with a few exceptions, are required to pay a tax on payrolls and the money is pooled for the benefit of the unemployed. New York already has collected more than \$20,000,000. The money is placed in the federal treasury and returned as requisitioned. Benefits are to start in 1938.

The federal social security act also taxes employers, but they are permitted to deduct from the federal levy 90 per cent of the amount paid out under a state plan. The federal government pays expenses of administering approved state laws.

For 1936 the federal and New York taxes were one per cent of pay rolls. They will be two per cent in 1937 and three per cent thereafter. Benefits will range from \$5 to \$15 a week and payments will be limited to 16 weeks a year.

The court's decision today was unexpected. While no announcement was made as to how the court was divided, many observers believed Chief Justice Hughes and Justices Brandeis, Cordozo and Roberts supported the act against Justices Vandevanter, McReynolds, Sutherland and Butler.

The action was announced by the chief justice immediately after he and his colleagues had filed into the chamber. He read the brief statement, a few other orders, and then court adjourned for two weeks during which the justices will prepare opinions in five New Deal cases that have been argued during the past fortnight.

The orders granted a hearing to Angelo Herndon, Cincinnati negro communist organizer, seeking to escape an 18 to 20 year chain gang sentence imposed by Georgia courts for violating an anti-insurrection statute enacted during reconstruction days.

Another denied a review to Illinois communists in their effort—now rather belated—to compel state officials to place the names of their candidates for president and vice-president on the ballot for the November 3 election.

By cable and trans-Atlantic telephone, the state department instructed its staff in the Spanish capital to abandon the \$500,000 embassy temporarily and to take with them to the Mediterranean seacoast city any of the approximately 200 American nationals still in Madrid who desired to leave.

American naval vessels, constituting this country's European squadron, will be called upon to evacuate private citizens who go to Valencia. At that place, seat of the present Spanish popular front government, the diplomatic staff will take up temporary business quarters.

**PARENTS OF DAUGHTER**

Word was received Monday of the birth of a daughter, Betty Jane, to Mr. and Mrs. H. E. Williamson, 4219 Washington Blvd., St. Louis. Mrs. Williamson was formerly Edith Keller of this city. Her mother is now living on East Franklin street.

Mrs. Kenneth Kundsden was a Macomb visitor in the city yesterday.

## VAN SWERINGEN, RAILROAD KING, DIES ON TRAIN

**Survivor Of Famous  
Brothers Hit By  
Heart Attack**

**Controlled Vast Network Of  
Railroads**

Cleveland, Nov. 23.—(AP)—Oris P. Van Sweringen, who started his business career as a newsboy and, with his brother, Mantis J., lived to manipulate and control a \$3,000,000,000 network of railroads and real estate, died today on a railroad trip to New York.

The noted financier, who wrote a spectacular chapter in the story of 20th century transportation, died after a heart attack as his train approached Hoboken, N. J. He was 57 years old.

It was less than a year ago that his brother, Mantis, died in Cleveland in the midst of their struggle to pull their railroad empire out of the depression.

At the Sweringens' offices here, Joseph Doherty, public relations counsel, said that two men who were with the railroad magnate on the trip claimed a minor accident in the Scranton, Pa. railroad yards "probably contributed to a heart attack."

The two companions were Herbert C. Fitzpatrick, vice president of the Chesapeake & Ohio and the Nickel Plate railroads, and W. H. Wenne-man, Van Sweringen's secretary.

"An engine switching a diner collided with the train at Scranton," Doherty said. "Nobody thought seriously of it at the time. The sill of a center window in Van Sweringen's car was broken by the impact."

At Scranton, Van Sweringen transferred early today from his own private car to that of Fitzpatrick. He ate breakfast soon after leaving Scranton and trainmen said he appeared to be in good health. The heart attack came soon before the train was scheduled to arrive in Hoboken.

Two physicians unsuccessfully attempted to revive him after the train's arrival.

The younger brother, Mantis, died Dec. 12, 1935, at the age of 54 after a short illness. Physicians said his death was caused by "general exhaustion brought on by mental and emotional strain."

"O. P." who was with him when he died was deeply affected.

Van Sweringen's body probably will be brought into the huge union terminal, which stands impressively on Cleveland's public square symbolizing to the financial and railroad world of "The Vans."

**Business Forces  
Delay in Dueling  
Bouts of 'Honor'**

**Hungarian Doctor Gets Rest  
Before Nine Saber  
Fights**

Budapest, Nov. 23.—(AP)—Business before dueling tonight caused postponement of the first of Dr. Franz Sarga's nine scheduled affairs of honor until tomorrow.

A court of honor granted the second delay in the duels after one of the men Sarga charged with slurring his wife's honor pleaded pressing business engagement would prevent him from accepting the very firm invitation of Dr. Sarga for tonight.

Besides, the court of honor was disturbed at the medical reports on three of Sarga's opponents who, their doctors said, were not quite up to the rigors of lunging at the sturdy Sarga with eight-pound cavalry sabers.

Under the complex formalities of Hungarian dueling each contestant must have an affidavit from a doctor saying he is fit physically to carve or be carved.

So the expectant and hairy Dr. Sarga hid himself to bed at an early hour, professing impatience at the delay but confident his knotty sword-arm would right his offended honor Tuesday.

Dr. Sarga's lissome wife, Magda, relieved visibly at the delay, nevertheless voiced utmost confidence in her spouse's ability "to show them" tomorrow.

The three men declared "unfit" to wield cavalry sabers may be allowed by the court of honor to settle their little disputes with pistols. Dr. Sarga said that was O. K. with him, but his seconds declared new protocols and challenges must be drawn if such a decision were reached.

Hungarians who love their dueling were a bit concerned over whether Dr. Sarga had not overtrained himself in his zeal to wipe out the blot which he said splattered his escutcheon because of the challenges' insinuations that he had married for money.

This was not so at all, Dr. Sarga said as he washed down a hard roll with a glass of wine. "I'll be just warmed up after the first duel," was the way he put it.

## Spanish Socialists Say Foreign Powers Helping Insurgents

(By The Associated Press.)

Madrid, Nov. 23.—(AP)—The Spanish Socialist government charged tonight that foreign powers supplied submarines and naval equipment to the Fascist insurgents and asserted one of the undersea craft torpedoed a government cruiser in Cartagena harbor.

(British sources in London reported the explosions on the Miguel De Cervantes might have been internal and not caused by a torpedo.)

The stricken vessel, the cruiser Miguel De Cervantes, would not be out of commission long, the ministry of marine and air declared. A communiqué said another torpedo streaked under the bow of the cruiser, Mendez Nunez barely missing that warship.

While the Madrid government was making its charges of foreign intervention in the Spanish civil war, the Fascist insurgents renewed their land and air bombardments of the besieged capital.

Six shells struck the heart of the city. One aerial incendiary bomb fell in the war ministry courtyard.

Several militiamen were wounded and many windows shattered by the explosions.

Other shells fell in the Puerta Del Sol, the city's main square, the Plaza Del Carmen and the Plaza De Bilbao. Crowds again stampeded into subway stations.

Fascist air raiders, kept on the ground by several days of cloudy weather, wheeled over the capital again today confining their activities mostly to dropping propaganda leaflets.

Several incendiary bombs came down from the planes.

Ten of Madrid's 300 regular firemen were killed fighting fires which on one recent day total 123 whereas the average in Madrid formerly was only eight or ten blazes a day.

One bomb was reported to have landed in the so-called "neutral zone" where are meting of the embassies, alarming the foreign refugees there.

At Saint Jean De Luz, Spanish government sources said an offensive was launched to recapture the Fascist-held cities of Tolosa and San Sebastian along the Biscayne front.

With Fascists Outside Madrid, Nov. 23.—(AP)—Fascist insurgents attacking the edges of Madrid tonight ran into homes converted into fortresses.

Militia, manning gun posts in the balconies and rooftops, unleashed machine gun fire on the turbaned Moorish legionnaires who led the advance of Gen. Francisco Franco's troops.

Deliberate and dispassionate, the Moors tossed lighted gasoline cans at their foes, driving them from the lower floors of the houses which they then stormed, often all while wrecking the houses over their own heads.

Fascist leaders heard reports that their enemies fortified the royal palace with anti-aircraft guns.

**FOREIGN MONEY  
MAY BE PLACED  
UNDER CONTROL**

**Fiscal Experts Are  
Considering New  
Move**

Washington, Nov. 23.—(AP)—Administration fiscal experts were reliably reported today to be considering expansion of federal reserve board powers and broadening of stabilization fund operators to provide firmer control of credit and effects of foreign capital movements.

In line with instructions from President Roosevelt, officials of the treasury, federal reserve board and securities commission are thoroughly canvassing economic problems raised by recent heavy inflows of foreign money, which have pushed upward excess bank reserves and the securities market.

The federal reserve board already has indicated it may take action to reduce excess bank funds after the first of the year, probably by further increasing reserve requirements.

Under the law, the board can lift these requirements another 50 percent above the level existing prior to last August 15, when one 50 percent raise went into effect.

Officials suggested today that should requirements again be increased by 50 percent to head off a possible "runaway" credit inflation, the board then would be without further direct control over reserves should they again pile up to "uncontrollable" levels.

By selling government securities, which would be bought largely by the banks, the board's open market committee could effect a reduction in excess reserves, but some authorities expressed the view that this control alone would not be adequate.

They added the situation is being studied to determine whether congress should be asked to give the board additional authority over reserves.

**QUEEN WILHELMINA**

The Hague, Netherlands, Nov. 23.—(AP)—Queen Wilhelmina tonight began her 47th year on the throne which she ascended as a ten-year-old girl.

In accordance with Dutch tradition, there was no celebration by the people or the royal family, which includes the 86-year-old Wilhelmina's only daughter, Princess Juliana, the heir apparent.

Juliana, Holland's "sweetheart," 27, is to be married Jan. 7 to Prince Bernhard of Lippe-Biesterfeld, Germany.

**IRISH ROYALTY**

Dublin, Irish Free State, Nov. 23.—(AP)—Former President William T. Cosgrave tonight presented United States Postmaster General James A. Farley with what he said was a copy of the Farley family coat-of-arms.

Farley, who has been on a vacation trip in Ireland, was honored later at a banquet given by President Eamon De Valera in Dublin Castle.

Charles Schirz of Waverly was included in the number of business visitors in the city yesterday.

District**

Juneau, Alaska, Nov. 23.—(AP)—Rescuers searched the landslide-ravaged apartment district of Juneau tonight for seven persons, missing after tons of mud and rock crashed into the area yesterday, killing at least one person and seriously injuring nine others.

Earlier estimates by Fire Chief V. W. Mulvihill placed the missing at from 5 to 25 persons and said four were killed when two slides rocketed off a mountain and swept through the neighborhood.

The first of the two slides did little damage but the second cut a 100 foot path through the neighborhood, burying stores and residences in a 40-foot mass of mud.

Guided by the voices of people trapped within the buildings, rescuers worked through the night to bring them to safety.

The known missing were: Mr. and Mrs. Hugo Peterson, who were in the Peterson two-story concrete building when the second slide struck.

Pete Battello who was dining with unidentified friends in the Nickinovich apartments, now buried under debris.

Mr. and Mrs. Eddie Bodine and their stepson, (age not known) who were in Nickinovich apartment occupants.

**Bendix Workers  
End Plant Vigil**

South Bend, Ind., Nov. 23.—(AP)—More than 1,000 dancing, cheering employees of the Bendix Products corporation ended their 150 hour occupation of the company's factory here this evening and then immediately set up picket lines to protect their jobs.

The workers had been in the plant since last Tuesday morning when company officials halted operations in protest against a demand for 100 per cent unionization of the factory.

Leaders of the International Union of United Automobile Workers of America, recommended to the workers that they withdraw from the plant after Bendix officials had refused to continue peace negotiations until they evacuated.

There was a two hours meeting in the factory this afternoon and then at 4:20 o'clock guards opened three gates and the parade of workers from the factory started.

Homer Martin of Detroit, president of the International Union, headed the workers as they marched from the factory. He was followed by a makeshift drum and bugle corps and then the long line of workers.

Hundreds of persons, including wives, husbands and children of the workers, were waiting on the outside when the march from the factory started. They had waited for two hours during the winter's first heavy snow.

**"PEACE AND JUSTICE"**

Northampton, England, Nov. 23.—(AP)—Sir Oswald Mosley, British Fascist leader, tonight advocated British return the colonies stripped from Germany after the World War.

Such an action, he said, would be "a contribution to peace and justice."

"For 15 years," said Mosley, "Hitler has preached friendship with England. The new Germany has been built upon an ideal exactly opposite to that of the old Germany."

He said that, as Reichsfuehrer Hitler has repeatedly asserted, the Reich needs raw materials and that any way the colonies in question aren't British.

## PATENT SYSTEM CELEBRATED IN BIRTHDAY FETE

**1,000 Banquet In  
Washington On  
Anniversary**

**Announce America's Twelve  
Greatest Inventors**

Washington, Nov. 23.—(AP)—A radio voice from a transport airliner tonight announced the names of America's "12 greatest inventors" to 1,000 banqueters celebrating the hundredth anniversary of the American patent system.

The diners on the ground heard from the announcer in the air that the inventors and their inventions were these:

Robert Fulton, steamboat.  
Eli Whitney, cotton gin.  
Samuel F. B. Morse, telegraph.  
Charles Goodyear, vulcanized rubber.  
Cyrus Hall McCormick, grain reaper.

Elias Howe, sewing machine.  
George Westinghouse, air brake.  
Alexander Graham Bell, telephone.  
Thomas Alva Edison, electric lamp, phonograph, motion pictures, and many other devices.

Ottmar Mergenthaler, linotype.  
Charles Martin Hall, process for making cheap aluminum.  
Wilbur Wright, co-inventor with his brother, Orville, of the airplane.

The list was chosen by a secret committee of prominent men.

Sharing honors at the dinner were a group of outstanding inventors of the present day, introduced by Dr. Charles F. Kettering, chairman of the committee in charge of the celebration and himself a leading automotive inventor.

The dinner program included a demonstration of new developments in electric lighting which brought the greatest concentration of light ever publicly produced indoors. Sixty-thousand watts were used to throw the banquet hall into a brightness equal to that of midday in summer.

The diners, who received licenses to eat the patented foods which made up the dinner, also were presented be-ribboned copies of the patent obtained on the meal.

During the afternoon a "research parade" of scientific findings not yet commercialized showed:

The burning of glass by silver sound waves of 300,000 per second.  
Generation of power from the sun's rays.  
Synthetic rubber made from gas.  
Stallies made from glass.  
Glassless automobile headlights.  
High fidelity sound reproduction through a 50-tube radio set.

**Bulletin**

Chicago, Nov. 23.—(AP)—Des Plaines street police reported tonight Michael Galvin, a figure in Chicago labor circles, was slain tonight by a shotgun fired from a car carrying four men.

The assassins pulled their car to the curb in the 500 block of West Madison street, emptied the weapon and sped off as Galvin fell with pellets imbedded in his head and chest.

He was dead on entrance into the County Hospital.

Galvin was business agent for a large union of teamsters.

Witnesses said he was standing near the curb when the killers' car drove up, against traffic and on the wrong side of the street. The car bore no license plates.

## Why Not a Stadium?

Three Jacksonville football teams are bringing successful seasons to a close this month. None has won any championships, but the local squads have handed out beatings as well as taking them. All of the Jacksonville teams this year have been respected for a consistent brand of football. They put up a fight when ever they took the field. Each squad representing Illinois College, Jacksonville High School and the Illinois School for the Deaf, has substantial followings of fans. Routh High school, a leader in the football business for several years, may decide to reinstate football as a major sport next year, thus placing four Jacksonville squads in action, as was the situation in former years. It seems that with three or four gridiron squads playing here regularly year after year, that a stadium of adequate proportions could be built to accommodate all of them.

Illinois College has its own field; the high school maintains a large athletic field, and the School for the Deaf has plenty of room for football and other sports. But there is not a permanent football plant in the city. All of the seating space is of temporary construction. Bleachers are used to handle the crowds, and in some instances are taken down after the end of the season.

Stadiums are among the list of projects for which the Works Progress Administration provides funds, if the amount necessary is backed up by local contributions. If Jacksonville ever expects an athletic stadium for its teams, the time could not be more opportune than now.

Of course, many details would have to be worked out. It may be that representatives of the schools would not care to enter a cooperative project to obtain a modern stadium. Such a project would necessitate much planning and full cooperation on the part of the institutions supporting football and baseball teams.

Often a stadium has proved a burden to one institution. How it would work with several schools participating and sharing the responsibility is a question, but one worth consideration.

At Carbondale, Ill., a large committee led by business men has piled up a deposit of more than \$6,000, to apply on the share of the Southern Illinois Normal university for a new \$75,000 stadium. Southern Normal is required to put up \$15,000, and WPA provides \$60,000, making \$75,000 for a modern football and all-round athletic plant.

Construction work on the brick stadium, to seat more than 5,000, is already underway, and the pouring of concrete bases has been going on for about a month. In addition to serving as the vantage point for all outdoor intercollegiate athletics participated in by Southern Normal, the edifice will also be used as a community center and outdoor recreation site, as will the athletic field.

Here is an instance of a single institution in a town with a population less than Jacksonville, raising \$15,000 for a stadium. With three or four schools participating, and the community helping the movement along, erection of a stadium here should not be impossible, impractical or a burden too large to be carried.

## Wanted: \$25,000,000

Old age pensions in Illinois during the next two years will cost \$50,000,000, one half of which will be contributed by the federal government under the social security law, the other half to be provided by the state. Where is the state's \$25,000,000 coming from? That is the question with which the legislative experts are wrestling at Springfield. They are forecasting the budget tables to be submitted to the legislature when it convenes in January, and have estimated that at least \$25,000,000 must be provided to meet the state costs for the new law under which an estimated 100,000 Illinois men and women will be drawing old age benefits by 1937.

As the law now stands Illinois provides a maximum payment of \$15 a month, which will be matched by another \$15 per month from the federal government.

Calculators have drawn up a preliminary budget for the system, in which it is estimated that the pensions will cost the state about \$18,000,000 a year, \$36,000,000 in two years, with the present number of prospective pensioners drawing their stipends. But it is also presumed that the numbers of pensioners will increase after the first year, so that \$50,000,000 for the cost of two years is conservative.

Just what form of new taxation shall be proposed for raising this large sum? That is

one of the problems which Governor Horner will find on his desk at the beginning of the new year. Extension of the three cent sales tax, which would be dropped to two cents after Jan. 1, unless extended, is one of the propositions for solving the pension tax. Some way must be found, for the present revenues cannot cover this new state obligation.

## The Union Services

There is no finer gesture of friendship and reverence than when churchgoers of Jacksonville get together at union services. The series of combined services during the summer months are highly inspirational; they do untold good for the worshippers, and for the community. A spirit of Christian fellowship is engendered that could not exist without these occasional assemblies, where the God-fearing, sincere men and women join in divine worship. Another one of those impressive programs in which members of many denominations will join has been planned for Wednesday evening of this week. On the eve of Thanksgiving, the churches will sponsor union services at Northminster Presbyterian church.

Every seat in the church should be filled that evening. The same spirit that induced the pilgrims to gather at their rude meeting place to give up prayers of gratitude, should be dominant in the minds of men and women of this community. There is no better way to express thanksgiving than to mingle with friends, neighbors and fellow townsmen at such a gathering, and enter into the services with devout mind. Worshippers at the union service will be prepared to enter the holiday with a better understanding of true gratitude.

Union Thanksgiving services have been held in this city for many years. It is an event to which many persons should look forward with interest, and should be among the largest gatherings of the year.

## Road Taxes For Roads

The Nation's Agriculture this month points to the dangers of the modern trend to divert taxes for highway construction and maintenance to other purposes. The magazine comes out squarely on the issue, demanding that all monies collected in the name of highway agencies be used to further improve thoroughfares.

"It has been argued that the main highways have had their share of attention," the magazine stated, "and that it is now time to spend the money elsewhere. Such arguments ignore the main question entirely. We have developed modern traffic to its present dangerous and deadly proportions, and it is now our public duty to take care of it."

"We are not meeting our obligation adequately, and it is playing fast and loose with a life and death matter to permit conditions to continue as they are. The motorists pay their license fees and gasoline taxes cheerfully—at least they pay them cheerfully when they knew the tax money was being spent to improve the road facilities—and it is up to the legislatures to keep faith with the people who are paying the bill. Money earned by gasoline taxes and license fees should go to build and improve roads, and for no other purpose."

## Hunting Accidents

The news columns of Illinois newspapers are recording the annual toll of hunting victims. A Springfield business man lost his life last week; a Beardstown young man underwent amputation of one of his feet at a Quincy hospital, as the result of an accident on a hunting expedition. These are but two of the dozens of instances of injury and death since the hunting season began Nov. 20.

The common causes of accidents continue to reap the results of carelessness. Using a firearm as a club to kill crippled game; climbing fences; carrying loaded weapons in automobiles—all of these practices may be counted upon to produce tragic results.

The hunting season takes thousands of men and boys into the field who scarcely touch a gun at other times of the year. Many modern day hunters are grossly inexperienced in proper methods of handling firearms. They are a menace to their own safety and to the safety of others.

An invitation, "Let's go hunting," often not to return. The amateur hunter who has had little training or experience in use of firearms is much more apt to shoot himself or companions, than a seasoned sportsman practiced in handling weapons. The man who has hunted for years has learned respect for the business end of a shotgun or rifle.

Young men and men who have never done much hunting would do well before going into the field to consult men who have had their turn in quest of game. The oldtimers will tell them they can't be too careful, and can give them a few simple rules that if followed, would reduce by half the annual death and injury list each fall and winter.

## Many Types of Eyeglass Lenses

## Available for Defects of Vision

By DR. MORRIS FISHBEIN  
Editor, Journal of the American Medical Association, and of Hygeia, the Health Magazine

So many different types of lenses for use in eyeglasses are available today that many people are confused as to their uses and possibilities.

The modern dispenser of eye-glasses considers the shape of the face of the person who is going to wear the glasses, and many other factors.

Eyeglasses may be used to correct nearsightedness, farsightedness, astigmatism, failure of the eyes to work together, and trouble with focusing, as well as eye-strain.

As they get older some people need two sets of eyeglasses, or bifocal lenses which makes it unnecessary to keep changing from distance glasses to reading glasses and vice versa. Eyeglasses have been developed even with trifocal lenses, providing for three different distances.

For certain very severe conditions of the eye there are available telescopic lenses, but these are exceedingly expensive and their usefulness has been greatly exaggerated by some of

the people who sell such glasses primarily for profit.

A recent development is a new kind of eyeglasses that are invisible and can be worn under the eyelids. Called "contact lenses," they cost more than ordinary lenses, are more difficult to use, and are less adaptable to ordinary requirements of eyeglasses.

A contact eyeglass is worn under the eyelids with the rim resting directly on the eyeball. The portion over that part of the eye which sees is separated from it by a thin layer of salt solution. Contact lenses are especially useful, of course, for actresses, models, and other people who do not care to have their appearance altered by glasses.

It is much harder to fit contact eyeglasses than it is to fit ordinary spectacles. The wearer has to be taught how to insert them and how to remove them. They have to be removed and inserted several times daily.

They should not, of course, be used except on advice of a person who understands fully the physical condition of the eye that is to be provided with this type of lens.

## Meredosia Man Hurt When Train Hits Car At Merritt Crossing

Edward Kline, of Meredosia, was injured and Henry Dickman, also of Meredosia, escaped with bruises about 10 o'clock Monday morning when the car in which they were riding was struck by a Chicago, Burlington & Quincy freight train on a crossing in Merritt. The machine was completely demolished.

Mr. Kline, according to Dr. Carl E. Black, has a compound fracture of the leg and an injury to one of his shoulders as a result of the crash.

Kline was rushed to Jacksonville immediately after the accident, and was placed under Dr. Black's care at Our Saviour's hospital. Dickman did not remain at the hospital, after an examination disclosed that he was suffering only from bruises.

Kline and Dickman had been in the Merritt community on a hunting trip. They started onto the crossing before they saw the approaching train, and then attempted to back off the crossing before the train arrived. Dr. Black said he was informed.

The two men had with them some valuable hunting dogs.

The crossing at Merritt is of the grade variety, and the train was believed to have been going rather slowly. Both men were thrown clear of the wreckage.

## BEHIND THE SCENES IN WASHINGTON

**Tugwell Was Influenced by Variety of Reasons in His Resignation... Unhappy in Contacts With Certain AAA Officials... Wife Disliked Washington... And Perhaps He Had Natural Desire to "Show" Critics He Can Make Grade in Business World.**

By RODNEY DUTCHER  
Journal and Courier Washington Correspondent

Washington.—Rexford G. Tugwell resigned from the New Deal for several reasons, most of which had been pushing him in that direction for some time.

The final push was administered when high officials of the AAA and the Department of Agriculture began a backstage campaign to keep Tugwell from returning to the department with his big resettlement administration—and when Secretary of Agriculture Henry A. Wallace seemed to be cool toward that proposal.

Tugwell had not been happy in his contacts with Wallace and that group of officials in his previous service with AAA and the department. Although he could have returned to his own terms and continued to boss the RA, he decided not to press the issue and thus enter a period of internal hostilities.

Behind that recent development is the fact that Tugwell is an abnormally sensitive, thin-skinned person. Subjected to a more bitter barrage of abuse than any other New Deal official, he has often wanted to get away from it all.

A few months ago he offered his resignation to Roosevelt with the suggestion that he was a liability to the administration. Roosevelt refused to accept the resignation, pointing out that Tugwell's departure would be taken by many liberals as a sign that the New Deal had gone conservative.

Tugwell was elated by the election results, however, and his friends insisted that the outcome was a vindication of him as well as of the president.

## Wife Disliked Capital

Another factor was Mrs. Tugwell's dislike of Washington and her desire to be with the children, who were scheduled for schools in New York.

The Tugwells also found living in Washington expensive, as everyone does, and one of the minor factors influencing the resettlement administrator was the opportunity to make more money—perhaps plus the very human feeling that he would like to become a business man for awhile if only to "show" those of his critics who had sneered at his academic background and the fact that he had "never met a payroll."

## Showed His Courage

An able and brilliant man, Tugwell stepped into positions which more cautious New Dealers avoided. Some of his admirers in Washington will tell you that "Rex was ten years ahead of his time."

Tugwell appeared to feel that caution would be reflection on his own courage and sometimes pushed so far ahead that he became a scapegoat for the New Deal.

Originally, Tugwell incurred enmity of business men and the more conservative AAA officials and farm organization leaders by certain efforts toward reform in the profit system. He openly favored narrowing the spread between prices the farmer receives and prices the consumer pays for food.

His views on relief for tenant farmers and sharecroppers are equally "radical" and various AAA officials feared his administration of farm tenancy programs would antagonize farm groups to whose desires they are responsible and whose support they seek—especially in the South.

## Faced Foe Faction

Wallace usually heads the anti-Tugwell group in AAA and the Agriculture Department, which is headed up by followers of Chester Davis, former AAA administrator, now with the Federal Reserve Board.

Hence Tugwell faced at least a certain amount of grief if he went back to agriculture with RA.

President Charles Taussig of the American Molasses Co. offered him a vice presidency of that corporation shortly before election. Tugwell didn't decide to take the job until the AAA campaign against him began.

Roosevelt believes his own worst enemies are in general the ones who have attacked Tugwell most vigorously. Although Tugwell may not be called back to take an administration post, it is not unlikely that he may be more important as a White House adviser in the future than he has been in recent months.

William W. Hart represented the Winchester vicinity in the business district yesterday afternoon.

## Governor Horner Will Attend Ceremonies at New Meredosia Bridge

Governor Horner yesterday arranged to attend opening ceremonies for the new Illinois River bridge at Meredosia. The governor will cut a ribbon to open the highway span to traffic at 2 p. m. Wednesday.

The Jacksonville delegation attending the Meredosia bridge opening Wednesday will leave the Chamber of Commerce at 10 o'clock in the morning. T. M. Tomlinson is chairman of the delegation. All persons who expect to attend are urged to obtain stickers for their cars and join the line of march from this city.

The Jacksonville State Hospital Band will participate in the celebration along with the Macomb band. There will be a parade preceding the official opening ceremony. Many state highway officials will attend the celebration.

Hundreds of local people have visited the new bridge, which is not yet open to traffic. Work was still in progress on the bridge Sunday. It is one of the most striking structures on the Illinois river, all steel and concrete, and built high enough to allow all river traffic to clear without use of draw or lift spans.

The governor will dedicate the new State Arsenal and office building at Springfield Friday.

## Many at Funeral of Jersey County Man

Services Held for A. H. Quinn; Daughter is New Circuit Clerk

Jerseyville—Among those from a distance who were here to attend the funeral of Circuit Clerk A. H. Quinn of Jersey county were: Mr. and Mrs. Frank Hassett of Princeton; Miss Gussie Timmons of Kansas City, Mo.; Mrs. Nellie Shehan of Oak Forest; Dr. and Mrs. C. R. McFarland of Glenn

Ellyn; Mr. and Mrs. Loren Stanley and children of Beardstown; Justice Norman L. Jones, Miss Delia Foley, Mrs. L. Ragan and Mrs. Lawrence Pranger of Carrollton; Mrs. Thomas F. MacDonald of Webster Groves, Mo., and Judge Walter A. Wright of Jacksonville.

Services were held at St. Francis Xavier's church Thursday morning at 9:30 o'clock. Solemn Requiem High Mass was celebrated by Rev. John J. Clancy, assisted by Rev. Martin J. Reidy and Rev. Father Sheedy of Michael. Herbert C. Bertman of this city was soloist during the Mass.

The pallbearers included P. J. Fleming, Thomas Cummings, Martin Walsh, Edward Rintoul, H. H. McCusky and William Tracy. Members of the Jersey county Bar Association and county officials attended the funeral in a body.

Miss Margaret Quinn of Jerseyville was appointed circuit clerk pro tem of Jersey county to fill the vacancy created by the death of her father, A. H. Quinn, and will serve until such time as an election is called to name a successor for the late Circuit Clerk. Miss Quinn's father died Nov. 17th after serving twenty-four years as circuit clerk of the county. He was re-elected Nov. 3rd, for the seventh time and would have started his new term December 7th. The vacancy was filled Thursday by Judge Walter Wright of Jacksonville.

## Several Clubs Near White Hall in Meets

Gregory Community Club Has CCC Men on Program; Other News of Interest

White Hall—The Gregory Community club held the November meeting at the school house south of the city Friday evening. There was a large attendance and a very fine program given. Maxine Hazelwood and Neva Norris tap danced with accompaniment played by Mrs. Russell Roodhouse. Betty Lee Rochester read a paper, "Tribute to Madame Shumann-Heineck" and Mrs. Russell Roodhouse sang "The Cradle Song," lullaby made famous by Madame Shumann-Heineck. Rosella Smith read a paper, "Our Interest in Other Ports," a geographical sketch in which she told of the various commodities of every day life and their origin. Jule Spencer played a guitar solo, and he and the Eastham brothers played two numbers with guitar and banjos. Mr. and Mrs. Carlos Griffin played an accom-

dian duet and Mr. Griffin played an accordion solo. They also played a group of numbers with guitar accompaniment played by Henry Peters.

Three men from the Henry T. Rainey CCC camp gave talks. Mr. Sweeney talked about the camp life. Mr. Hansen talked on soil erosion and Mr. Kohetz on the planning and engineering of the objects.

**Matron's Club Meets**  
Mrs. A. R. McConathy entertained the Matron's club of Lorton's Prairie at her home east of the city, Friday in an all day meeting. There were thirty-five present including members and guests. All the members except three were present. The guests were Mrs. Charles Vaughan, Mrs. Prosia Walborn, Mrs. A. A. Thompson, Mrs. Harold Kistler, Mrs. Roy Campbell, all of White Hall vicinity. Mrs. W. J. Allen of Roodhouse, Mrs. Kate Ruyke of Roodhouse, Mrs. Ralph Lorton of Mis-mann-Heineck and Mrs. Russell Roodhouse sang "The Cradle Song," lullaby made famous by Madame Shumann-Heineck. Rosella Smith read a paper, "Our Interest in Other Ports," a geographical sketch in which she told of the various commodities of every day life and their origin. Jule Spencer played a guitar solo, and he and the Eastham brothers played two numbers with guitar and banjos. Mr. and Mrs. Carlos Griffin played an accom-

pany. Mrs. Claude Willhoite was hostess to the members of the Loyal Daughters class of the Christian church at her home on North Main street, Friday evening. She was assisted by Mrs. Merrill Allen and Mrs. Frank Bogess.

The fire department was called to the home of Mr. and Mrs. Glenn Kneeland on West Lincoln street, Sat-

urday noon, where a spark on the roof had caught fire. A hole about four feet square was burned in the roof. Mr. Kneeland is telegraph operator at the Burlington depot.

Mr. and Mrs. John Strang who have been living on West Franklin street in the Pinkerton house for the past few years are moving this week to the Baker house on West Bridgeport street. Supervisor and Mrs. T. A. Kesinger have purchased the house vacated by the Strangs from Mrs. Willis Pinkerton, who resides in Douglas Arizona, and are moving in from the farm on Apple Creek Prairie where they have been living for several years. It will be home-coming to the Kesingers who formerly owned the house they have again purchased. They have sold their farm on Apple Creek Prairie to Ernest Schutz who will move there in the spring, from the Mrs. Lee Griswold farm farther west of White Hall. Mr. Kesinger first lived in the West Franklin street house in 1902 and then sold it in 1914 and now has bought the same place again. Since he was named supervisor of White Hall township to succeed H. O. Johnson, who was made postmaster last spring, Mr. Kesinger has found living on the farm rather inconvenient for his business.

**NEICE OF MRS. W. D. DOYING PASSES AWAY**  
Mrs. Ola Boggs, niece of Mrs. W. D. Doying of this city, died Friday morning at her home in Napa, Cal. Her mother, Mrs. Eva Oress, who came here a month ago to spend the winter with her sister, Mrs. Doying, received word of her daughter's illness and left Thursday to return to California. Mrs. Boggs is survived by her husband, two sons and two daughters, all residing in the west.

### YOU CAN THROW CARDS IN HIS FACE ONCE TOO OFTEN

WHEN you have those awful cramps; when your nerves are all on edge—don't take it out on the man you love. Your husband can't possibly know how you feel for the simple reason that he is a man. A three-quarter wife may be no wife at all if she nags her husband seven days out of every month. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature tone up the system, thus lessening the discomforts from the functional disorders which women must endure in the three ordeals of life: 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age." Don't be a three-quarter wife, take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and go "smiling through."

### SOCIAL SECURITY EXPLAINED BY QUESTIONS AND ANSWERS

Note: This is another in a series of eight articles on the federal social security plan.

54. Q.—How will payment of monthly federal old-age retirement benefits, lump-sum payments and payments upon death be made? A.—By government check.

55. Q.—Is any adjustment made if at any time the amount of my monthly federal old-age retirement benefit is incorrect? A.—Yes. The law provides that, if you have received either too much or too little monthly benefits, adjustment shall be made in connection with subsequent payments to you.

56. Q.—What will happen if the mistake is not discovered until after my death? A.—If it is found at your death that the amount of federal old-age retirement benefits you have received is less than the correct amount, the remainder will be paid to your estate. If you have received more than the amount to which you were entitled, the federal government may collect from your estate the amount you have received in benefits over 3 1/2 per cent of wages, whichever is the smaller amount.

57. Q.—Where is the money obtained for these payments? A.—The social security act establishes an old-age reserve account in the federal treasury. Each year congress is authorized to appropriate to this account an amount sufficient "as an annual premium" to provide for the obligations incurred by the federal government for these federal benefits. This amount is to be determined "on a reserve basis in accordance with accepted actuarial principles."

58. Q.—Will the checks for monthly federal old-age retirement benefits be sent each month by the federal treasury? A.—Monthly federal old-age retirements are to be paid as nearly as possible in equal monthly installments, except when "regular employment" after the age of 65 requires modifications.

59. Q.—How will the treasury department know who should receive benefits? A.—The social security board will determine who is eligible for benefits under the law and will compute the amount. The board will furnish this information to the treasury department.

60. Q.—How will the social security board know how much to pay a person eligible for benefits? A.—Plans are being made to set up individual wage-record accounts for approximately thirty million wage earners, so that the wages and employment history after 1936 may be recorded. These records are to be carried for each individual either until a lump-sum or death payment is made to those so entitled, or in the case of those who will receive monthly payments for life after their sixty-fifth birthday, until the final closing of the account at death. Some method must insure that all wages from included employment are recorded accurately and that the wage records of men with like names will not be confused. To accomplish this, individual benefit account numbers will be assigned and a few simple facts such as date of birth, parents' names and place of birth will be recorded to identify the individual.

61. Q.—How will this be accomplished? A.—The United States, including Alaska and Hawaii, will in the next few months be divided into areas, and provisions will be made for the assignment of individual account numbers within such areas. Each worker in an included employment will be provided with a card showing the number of his account.

62. Q.—Will I be able to learn the size of my benefit account? A.—Plans are being made to furnish employees upon request statements showing the amounts of wages recorded in their accounts. This arrangement will enable employees to calculate the amount which would be

## Us Wilkens buying a Thanksgiving turkey over at Farmer Smollett's place.

That's Farmer Smollett bent down there and remarking to us how you can't expect a turkey to get itself all plumped full of tender meat without you fattening him up on first rate grain. Pa Wilken always said the same about whiskey. You got to use the finest cleanest grain if you want your whiskey to have a grand taste and body to it. To the left of Farmer Smollett, it's Tom and me. And on the right, it's William and a party everybody around here calls Cap. Look at our dog Jessie there. If she had her way, I don't guess we'd have that turkey on Thanksgiving!

## For special tastiness on Thanksgiving

—enjoy the personal whiskey recipe of a family of distillers!

This Family's Whiskey of ours fits into Thanksgiving feasting like nothing else. You see the Wilken Family Whiskey is really something pretty special. I don't imagine there's anything like it anywhere around. For it so happens that we've been a family of whiskey making folks ever since anybody can remember. Thinking back, I still mind the time when I used to watch

my old Grandpa Wilken busying himself over one of those old-fashioned looking stills they used to have those days. And as for Pa Wilken—his personal experience comes to something more than 40 whole years. So you can easy see there's plenty of reason for The Wilken Family's own family recipe being just about the tastiest whiskey you ever come across!

### Carrollton

Carrollton.—The annual membership drive of the American Red Cross which commenced Armistice day, Wednesday, Nov. 11, and is to continue until Thanksgiving day, Thursday, Nov. 26, is on in all earnestness in Carrollton. Almost every girl student in the Carrollton High school and upper grade school as well as the girl students of St. John's High and Grade school are taking a very active part in soliciting memberships.

Give until it hurts and enjoy the hurt in knowing you are relieving others. Another drive is being made here this month. It is for funds for the Salvation Army Christmas fund. This is also a grand cause and any who can are urged to aid it.

Mr. and Mrs. Edgar LaRue of Oakland, Calif., were guests during the past week of Mrs. George DeBolt.

Mr. and Mrs. Jack McDonald, Mr. and Mrs. Lynn P. Simpson, Bruce Dawson, Otis Liles, Delbert Driver, Louis Pranger, and Edward Bowman attended a football game at the Washington University stadium, St. Louis, Friday.

Miss Mary Elva Linn, a student at MacMurray College, Jacksonville, was a week-end guest at the home of her parents, Mr. and Mrs. Thomas Linn.

State officers of the Baptist Missionary society met Thursday at the Cherry Street Baptist church, Alton. The following members of the local society attended: Mrs. Eva Robinson, Mrs. Richard Giller, Mrs. William Cross, Mrs. James Widdowson, Mrs. Meade Dickson, Mrs. Leven Dowdall, Mrs. Charles Bradshaw, Mrs. L. C. Thompson, Mrs. Rupert Valentine, Mrs. Curtis Bishop, Mrs. G. K. Hutchens, Miss Allie Norton, Mrs. Lillie Vandarsand, Mrs. A. J. Sharon, Mrs. Clair Sharon, Mrs. Joseph Woolsey, and Mrs. Oren Siebermann.

Edward Holtman of St. Louis spent the week-end here with his aunts, Misses Anna and Martha Pranger.

Mrs. Phil Mann left here Saturday for Cincinnati, O., where she will visit for a week with her son and daughter-in-law, Mr. and Mrs. Jack Mann.

The Kane Baptist Sunday school observed Rally day Sunday morning. A short program was given by each class. One hundred and one were present.

Joseph Gustaf, famous cornet player of the St. Louis Symphony orchestra, assisted by Jerry Commack and other soloists of Belleville, gave a band demonstration at the Kane Methodist Episcopal church Monday evening. The proceeds went to the Kane Public School band.

The first meeting of the Live Wire class of the Kane Methodist Episcopal church was held at Irene Williams' home Friday night. The following officers were elected: President, Marian Wehrle; secretary, Tonette Cory; treasurer, Eleanor Worley. Each member was accompanied by a guest. Games were played and refreshments served.

Loretta Fleming of St. Louis, Elizabeth Fleming of Jerseyville spent Sunday with their sister, Mrs. Otto Langer, in Eldred.

Mr. and Mrs. Otton Newton were dinner guests Sunday at the home of Mr. and Mrs. Charles Smith. The dinner was in honor of the birthdays of Mrs. Newton and Marjory Smith.

Ages of the children who may attend the pre-school classes each Wednesday, Thursday, and Friday in the recreation hall have been changed from 4 to 6 years to 3 to 6 years, thus embracing a greater number of chil-

dren. Many of these children's parents were very anxious that they be included in this program. The children are taught games, how to make yarn dolls, are told tales and engage in various activities of interest to the child of pre-school age.

Mothers are asked to bring any child of these years to the classes on the above named days from 2 to 4 p.m. A pastime program was presented in

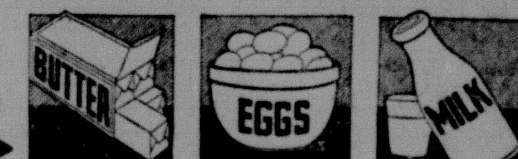

the hall Saturday which included handicraft, wood and pottery, and games. A one act play, "Brown and the Agents," is being sponsored and particulars and cast will be announced soon. The purpose of the play is to enter the WPA area contest the first week in December, from which it is hoped this district will come out successful enough to enter the WPA district contest.

## We want every woman in JACKSONVILLE to Try Spry

### No risk! Read our Daring Offer — DOUBLE YOUR MONEY BACK

UNKNOWN a few short months ago — now used by over 3 million women! That's the amazing story of Spry, the new, purer ALL-vegetable shortening. No wonder we're eager for you to try it. No wonder we say, without a moment's hesitation, "Double your money back if Spry isn't by far the best shortening you ever used."

You can SEE the difference

The instant you open a can of Spry you'll know it's better. Spry is so much whiter, smoother, creamier. It looks so fresh and sweet. For Spry is ALL-vegetable, not an atom of animal fat.

But that's not all. Spry stays fresh and sweet always. No need to keep in the refrigerator. Stand it right on the pantry shelf. You can keep

it for months and the last spoonful will be as good as the first. And it will always be soft and easy to cream. Spry is better for frying, too. No smoke. No unpleasant odor. No soggy, greasy foods.

Cooking doubly delicious

Use Spry in all your baking and frying. You'll see a wonderful new lightness and delicacy of flavor in your cakes and biscuits. "Even the most expensive shortening never gave me as good cakes as Spry does," women tell us.

And what compliments you will get on your pastry! Spry makes it so tender, so flaky. Fried foods, too, will be crispier, tastier — and as easy to digest as if baked or boiled. Spry has been tested and approved by Good Housekeeping Bureau. Try Spry today. Remember our offer.

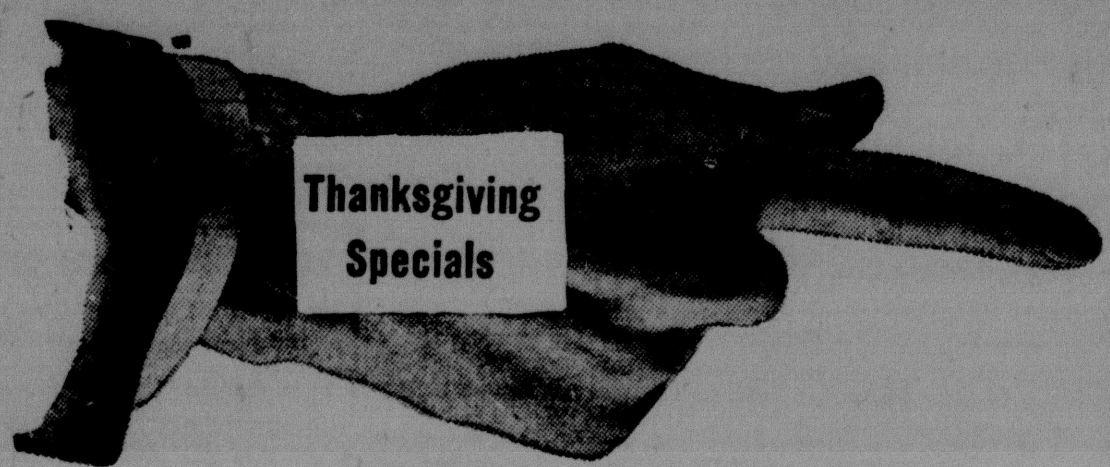

Buy a can of Spry from your grocer. Give Spry every test in pies, cakes, biscuits, fried foods. If you don't find Spry the best shortening you ever used, write to Lever Brothers Company, Cambridge, Mass., stating briefly your reasons for not preferring Spry. Send your name and address and the strip of tin that the key takes off when you open the can. You will promptly receive back twice what you paid for Spry. This offer is limited to one can to a family.

### Summer Round-up Reports Requested For P.T.A. Meetings

Local Units Cooperate with  
State Organization in  
Summer Program

Local chairmen of P.T.A. groups have been asked to make reports in their units at the meeting nearest to the November conference date, Nov. 19-23. The Summer Round-up is a campaign to send to the entering grade school a class of children as free as possible from remediable defects, and protected against diseases. The ultimate goal is to educate parents to the need for early periodic examinations of their children.

To date 2,487 health certificates have been awarded to children in Illinois who, through the efforts of Parent-Teacher workers to carry through the plan of the Summer Round-up, were able to enter school free from remediable defects.

The local units have cooperated with the state health department in dental clinics, which will continue through the winter, assisted by Jacksonville dentists.

Mrs. Leonard H. Graf of Elmhurst, state Summer Round-up chairman of the Illinois Congress of Parent and Teachers, in cooperation with the state health department has recently conducted a special health conference, following the Summer Round-up, to make plans for the summer of 1937. Mrs. Graf says: "The pre-school age

is a crucial age in the life of the child. Many ills of later childhood, adolescence, and adult life have their beginning in the interval between infancy and school age.

The Jacksonville Parent-Teacher Association, in cooperation with the Federation of Women's clubs, county superintendent of schools, and the Y.M.C.A., is planning a series of lectures delivered by Mrs. Margaret Wells Wood of the public health department, sponsored by Dr. Grace Wightman and Miss Leone Ware, district supervising nurse of the district.

### STUDEBAKER DEFLATES GAS MILEAGE CLAIMS!

STUDEBAKER cars have made magnificent records in gasoline economy. But you don't care about records achieved under special circumstances. You want to know what good, bad and indifferent drivers get under average conditions!

O. K. We will tell you! Studebaker hired Facts, Inc., a business research organization, to question 500 owners of each of the ten most popular makes of automobiles (1936 models). Each driver was asked: "What gasoline mileage do you get?"

The best showing was made by Studebaker. Owners of the Dictator, with overdrive, testified to an average of 18.166 miles per gallon. Even the most popular lightest weight, lowest priced cars used more gas per mile.

Without overdrive, the Studebaker Dictator showed 17.199 miles per gallon—which is better than one of the two most popular, lowest priced cars.

### STUDEBAKER'S CHALLENGE!

No other standard make of car can beat the gas mileage of the Dictator equipped with automatic overdrive in the hands of the average driver under ordinary conditions.

### Grace Church Doings

Sunday was another day of inspiration and helpfulness. The Woman's Home Missionary Thank Offering was observed at the morning hour. The pastor made the presentation using as a theme "Possessing or Being Possessed." A very liberal offering was taken.

At the evening services Rev. Williams told the "Story of Thanksgiving" in a very interesting and helpful manner. Very large and enthusiastic audiences attended the services throughout the day. The music was especially worshipful in all the services.

The recent change in the older department of the Sunday school is proving each Sunday that it was a wise move. The Epworth League services are meeting each week with a growing interest and attendance.

Preside gatherings will be held during the week at the following homes: Monday evening at the home of Mr. and Mrs. L. T. O'Leary, 1014 South Main street. On Tuesday evening at the home of Mr. and Mrs. C. E. Williamson, 210 West College avenue; Friday evening at the home of Mr. and Mrs. T. W. Beadle, 715 West State street.

On account of the Union Thanksgiving service on Wednesday evening the mid-week Fellowship meeting will not be held.

Boy Scout Troop No. 197 will meet Tuesday evening at 7:30.

### STATE SCHOOLS SHOW DOUBLE ENROLLMENT

Springfield, Ill.—(P)—Total enrollment in Illinois' public schools has almost doubled during the past fifty years, rising from 738,487 in 1885 to 1,395,907 in 1930, the peak year, State Superintendent of Public Instruction John A. Wieland said today.

Wieland said the total passed the million mark in 1910 with 1,002,687 and had steadily increased since that time, with the exception of a slight slump shown since 1930.

The 1925 enrollment was listed as 1,342,430, while last year it was 1,373,320.

## First Aid Station Proves Valuable to Accident Victims

Post at Woodson Gives Great Assistance to Injured Persons

Emphasizing the enormous death toll occurring each year as a result of accidents on the highways of the nation, Dr. George L. Drennan, Chairman of the Morgan County Chapter of the Red Cross, yesterday described the system of highway first aid stations which has been put into operation by the Red Cross during the past few months.

"The immediate treatment of those injured on the highways is one of the chief needs in eliminating many deaths from automobile accidents," Dr. Drennan said. "We have found the chief danger spots to be in rural rather than urban areas, and our first aid stations on the highways from one side of the country to the other is our solution of the problem."

Dr. Drennan said that the Red Cross had already established more than 600 of these first aid stations on the highways of America, where they have been set up in general stores, tourist inns, and rural police and fire departments and filling stations. The personnel of these stations, he revealed, were thoroughly trained by the Red Cross in first aid, and standard first aid equipment was installed in each station.

Station in County One Highway First Aid Station has been established in Morgan County. It is located at the Steinmetz Cafe and Filling Station in Woodson, Ill. Nine persons in that immediate community are trained in first aid. Two badly injured persons in a highway accident have been treated in the Woodson First Aid Station. A young man who had a bad scalp wound and other lacerations on his limbs and body, was given efficient first aid treatment, a doctor was called to attend the patient, and an ambulance was sent for. By the time the doctor arrived in the ambulance the young man was over most of the shock and resting comfortably. The doctor accompanied the patient in the ambulance to his home in a distant city. It was necessary for the doctor to take several stitches in the head wound and treat the other injuries.

The child hurt in the same accident was taken to a doctor in a distant city by the mother after receiving first aid treatment in the Highway Station. A deep cut on the forehead and a few other small cuts were the extent of the little boy's injuries.

Several other slight injuries due to accidents have been treated by Mr. and Mrs. J. Steinmetz, and others trained in first aid, in the Red Cross First Aid Station in Woodson. While this Highway Station has been in existence only about two months, it has served its purpose well, and it is a credit to Morgan County and the Red Cross organization.

Two other Red Cross First Aid Highway Stations are to be established in Morgan County within the near future, if funds will permit, by the local chapter. One on the east hard road, and the other one on the west hard road. The expense of the first aid equipment in these stations is borne by the local chapters, and the replacement of this equipment is the responsibility of the local chapter.

Mrs. Fred Preston transacted business in the city yesterday afternoon from Alexander. Mr. and Mrs. Lawrence Harvey were callers in the city yesterday from Griggsville.

Winchester—John B. Thompson, 72, former assessor and treasurer and county clerk of Scott county, succumbed at his home here at 7:30 a. m. Monday after an 11 day illness following a stroke of paralysis.

Mr. Thompson was elected county assessor and treasurer in 1895, and in 1898 was elected county clerk. After serving these two terms, Mr. Scott retired from political life and entered the grocery business here. For many years he conducted the store, retiring a few years ago.

Deceased was born in Bluffs. He is survived by his wife and one son, Ray, both of this city. A daughter, Ina, died a few years ago.

Th remains were removed to the Danner Funeral home where services will be held at 2 p. m. Wednesday. Burial will be in the Winchester cemetery.

## McCalman Company Gets Decision Over H. P. Potter in Suit

Defense Evidence Insufficient, Court Says in Ruling on Issues

R. McCalman Construction Company, Incorporated, was awarded the verdict in a suit brought by them against Howard P. Potter, of this city, alleging an indebtedness of \$800. Monday morning in circuit court when Judge Walter W. Wright ruled that the defense had presented insufficient evidence to support its claim of a contract.

The case was tried before the judge without a jury, and involved work which Potter alleged he did for Shelato in connection with the letting of a sewage treatment and disposal plant contract at Bushnell.

Shelato, placed on the stand as a witness in the case, denied that he entered into a contract to pay Potter \$500 for services in connection with figuring on the bid for the work, and stated that Potter merely rode to Bushnell with him on the day the contract for the work was let. Shelato denied that he saw Potter the night before.

Potter, who also took the witness stand, stated that Shelato called him late in the afternoon the day before the contract at Bushnell was to be let, and later came out to his home, where the two men went over the details of the bid which Shelato was to submit for the McCalman company. Potter said he rode to Bushnell the next day with Shelato, and that the McCalman company was awarded the contract. Potter also said that his presence was required at the letting, but did not state why. Shelato, in his testimony, stated that he knew Potter would attend the letting.

R. McCalman, president of the company, also testified that Shelato figured the cost of the job, and submitted his figures to him. McCalman said that he told Shelato how much to bid for the contract.

The other \$100 which Potter indicated it was his belief the McCalman company owed him was for selling bonds. He explained that the contractor agreed to take bonds in payment for the work.

# Routt Opens Little Six Conference Drive At Murrayville Tonight

## Wesleyan, St. Viator Claim Little Nineteen Conference Grid Title As Season Ends

Chicago, Nov. 23.—(AP)—With all but one game of the Illinois intercollegiate conference schedule played, Illinois Wesleyan and St. Viator claimed conference championship honors today.

Both undefeated, the Saints and the Titans scored their third and fifth straight victories, respectively, Saturday to end their conference seasons.

Wesleyan overpowered State Normal 18 to 0, while the Bourbonnais grid machine emerged victorious 7 to 2 over Southern Teachers.

The one league game remaining takes place Thanksgiving Day between Bradley and Millikin at Decatur, and will have no effect on the championship.

Carl Tipton furnished the "tip" on the Wesleyan-Normal game Saturday when he grabbed a punt in the first period and snake-hipped 50 yards for a

touchdown. The 6 points was enough but Peterson and Wallack added two more touchdowns for good measure.

An "iron arm" stunt for the Titans was announced by Coach Harry Bell. Already scheduled to play Louisiana Poly at Ruston, La., Thanksgiving Day, Bell said his squad also would play the next day, Friday, at Ouachita College, Arkadelphia, Ark.

Fullback Lenhan provided St. Viator's margin over Southern Teachers Saturday by a 19 yard touchdown dash in the second period. The Teachers obtained their points by a safety in the first quarter.

In other week-end games, Eastern Teachers eked out a 6 to 0 win over Eureka, Augustana tied Carthage 10 to 10, and a 33 to 0 score, Lake Forest ran Albion dizzy to win 42 to 6, Illinois College defeated McKendree 20 to 0, and Knox beat Monmouth 6 to 0.

here, returning to Alsey Sunday evening.

Mr. and Mrs. Jack Bowman of White Hall visited relatives here over the week end.

Mrs. Dale Blair is visiting her sister, Mrs. William Moss and family in Winchester this week.

## CHAPIN CHUCKLERS HOLD ANNUAL MEET

Chapin, Nov. 23.—The Chapin Chucklers held their regular meeting Wednesday evening, November 18 in the Grade School Auditorium. The hostess and host were Alma Williams and George Perbix. After the business part of the meeting was over a program was given which included a piano solo by Miss Vose and a piano solo by Loraine Brockhouse. Games were played and refreshments served.

Those present were: Loraine Brockhouse, June Dehart, Rachel Watts, Robert Zulauf, Earl Thompson, Warren Gofinet, Howard McDaniel, Maxine Lakamp, Martin Nash, Cora Lee Cooper, Paul Nash, Wendell McNeil, Barbara Taylor, Thelma Brewer, Barbara Woodward, Carl Gimbel, Miss Verda Vose, Alma Williams, George Perbix, Ruth Vortman, and Miss Margaret Nierman, sponsor. ## J.H.S. and Tigers Get Ready For Go

### First Meeting in Six Years Finds Teams Evenly Matched

Jacksonville High and Illinois School for the Deaf, sponsors of teams which haven't met on a gridiron since Nov. 11, 1930, are looking over their respective forces these days with an eye to their coming battle on Thanksgiving morning on the Jacksonville high athletic field for the city prep championship.

There are supporters in each camp who profess to see a win for their favorites, but the hard headed dopesters haven't been able to find anything on which to base their predictions for a win either way, and therefore feel that the game is pretty much of a toss-up.

That situation is unique in the annals of the game, for the Tigers of other years have ranked as outstanding favorites. This year's Tigers can't hope to win by the score of the 1930 season, which was 7 to 0, but they can point to some notable events on their schedule thus far this year.

There is one comparison which indicates a Jacksonville high victory. The Crimsons beat Carrollton, 25-6, after the Hawks had dropped their opening game of the season to Quincy 19-0. The Tigers went over to Quincy along in October and submitted to a 22 to 6 defeat. In this connection, it is only fair to point out that Carrollton lost three men just before the Jacksonville game and hadn't had an opportunity to weld into the machine some of the spare parts which were called upon.

Coach S. Robey Burns isn't a bit backward about forecasting a 35 to 0 defeat for his Tigers, but the Tiger coach has made this kind of a forecast before and his boys have responded to the challenge and whipped opponents.

Coach Frank Walker, on the other hand, declares his team is not in the least worried about the Tigers, and in fact, seems rather eager to get a shot at them. The Crimsons coach called off practice yesterday in order to work on charity horses acquired by Rabbit Ranson, Strommatt, Scott and Marshall, and expected that the boys would be in good shape for the Tigers. Ranson didn't play all of the Roadhouse game because of an injury. Marshall didn't get his injury in a football game. He fell down in a downtown meat-market and bruised a muscle.

The game is scheduled to begin at 10 a. m. Thursday, with Adams and Chapman, of Winchester, and Knopp, of White Hall, as the officials.

**HOLD FINAL RITES FOR WM. CONNER AT MURRAYVILLE CHURCH**

Largely attended funeral services for William Conner of Roadhouse were held Saturday morning at 9:30 o'clock at St. Bartholomew's Catholic church in Murrayville.

Requiem high mass was sung by Rev. Martin J. Reidy of Jerseyville acting celebrant, Rev. D. P. Lydon as deacon and Rev. Chas. E. Englum of Jacksonville as sub-deacon. Interment took place in St. Bartholomew's cemetery, east of Murrayville.

The many beautiful floral tributes were cared for by the Misses Mary and Stella Doolin, Clara Rook and Mrs. Rose O'Connell. The casket bearers were S. V. McConnell, Michael Speck, John Hunt, Frank Shuman, Perry Campbell, James Orr, James McVay and Claude Martin.

Those from a distance who attended the funeral were Rev. Martin J. Reidy, of Jerseyville, Rev. Chas. E. Englum, Mr. and Mrs. W. T. Hayden and daughter Mary Margaret, Mr. and Mrs. W. H. Doolin, Mr. and Mrs. W. P. Cook, Mrs. Florence Cowger, Mrs. Robert Buck and daughter Clara, Miss Stella Doolin, Mary Sullivan and Catherine Doolin all of Jacksonville, Theodore Stauff and son and Miss Rose Doolin of Shipman and Mrs. Anna Conner and daughters, Alma Mae, Edna and Mrs. Clara Kebab and son Frank Conner and George Moserang of St. Louis.

**DR. H. ROSENBERG IS SPEAKER AT PHI ALPHA SOCIETY MEET**

Dr. Hans Rosenberg, speaking on "The Academic Situation in Germany prior to 1933" gave the featured production on the program of Phi Alpha Literary Society in the society's halls in Old Beecher last night.

The Illinois College professor described the system of faculty selection by a state minister of education on nomination by the faculty of the university, and the entire lack of curriculum in the German institutions of higher learning, both of which made for a great deal of liberty and freedom in the universities.

In a lengthy question and answer period, Rosenberg contrasted this freedom with the situation in Germany today, as it has been reported to him by friends in Germany.

Only four courses are open to a professor in Germany today, Dr. Rosenberg said. He may teach Nazi principles, he may be pensioned, he may resign and cease teaching, or he may leave the country. The first question asked of an applicant for a position in the faculty of a German university is his political leanings, Rosenberg said.

Rosenberg, stating that he had not been here long enough to form a conclusive opinion, said that he had noticed a trend in the students of America to demand more freedom in choice of subjects, and an individualism which is tending to break down the schematized curriculum.

Other productions given at the meeting were: essay, "Are College Athletics Over-emphasized?" Don Krieger; select reading from "Queen Victoria," Roger Hopper; oration, "Pan-American Conference," Ves Richey.

## Army-Navy, Rose Bowl Game Hold Grid Fans Attention

### New York—(AP)—Drawing a deep breath for a plunge into the last big roller of the stormy football sea that already has upset most of the nation's proud gridiron argosies, the fans are groping around for the answers to two big questions this week.

Which teams will play in the Rose bowl Jan. 1 for the mythical national title? And who will win the Army-Navy game?

The annual service classic, to be played at Philadelphia Saturday, is the signal for the curtain to drop, although scattered games will be played throughout December. Already the Big Ten and many of the major teams in the east and throughout the country have concluded operations for the year.

The south probably will settle one half of the Rose bowl question while Washington, the current leader, and Washington State will fight it out Thursday for the Pacific coast conference title and the western nomination.

Santa Clara, which hung up a 13-6 record, is the only unbeaten and untied team of "major league" caliber in the nation, but is not a conference member and is out of consideration for the Rose bowl.

With Marquette beaten 13-0 by Duquesne and Fordham held to a 7-7 tie by a supposedly inferior Georgia team, Alabama and Louisiana State are the ranking candidates.

The Southeastern conference leaders, both tied but undefeated, are favored to come through this week's games handily. Alabama concludes its conference campaign Thanksgiving day against Vanderbilt. L.S.U., which warmed up its offense in a 93-0 rout of Northwestern Louisiana, plays its traditional rival, Tulane, which displayed a lot of power in trimming Sewanee 53-6.

A few other Rose bowl possibilities may get in a few words in the course of the following double-barreled national program.

East—Fordham, still the only unbeaten big team in the east despite two wins, winds up against New York University, 27-7 victor over City College.

**A. CLIFFORD CRUSE WEDS LUCILLE ADKINS AT MANSFIELD CHURCH**

Bluffs, Nov. 23.—Mr. and Mrs. John F. Adkins announce the marriage of their only daughter, Lucille Maurine, to Arthur Clifford Cruse of Peoria. The ceremony occurred at 2 o'clock Saturday afternoon, Nov. 21, in the Methodist Episcopal church in Mansfield, the Rev. Harmon Kelley, pastor of the church, officiating. The single ring ceremony was used. The only attendants were Willis Martin acting as groomsmen and Mrs. Evelyn Martin as bridesmaid.

The organ was played while the bride, bridegroom and attendants marched up the central aisle of the church and played softly throughout the ceremony. The bride wore aquiline blue crepe de chine with accessories to match, while the bridesmaid wore a lighter shade of aquiline blue crepe de chine with accessories to match.

The groom wore a light grey suit and the groomsmen wore a navy blue suit. Miss Adkins was graduated from the Bluffs Community High school, class of 1926. She continued her studies in MacMurray College, Jacksonville, where she was graduated from that institution with the class of 1933 and received her A. B. degree. It was at her senior prom Nov. 12, 1932, where she was formally introduced to Mr. Cruse.

She has been a successful teacher in Scott county for three years prior to her graduation from MacMurray College. She has taught two years in Princeton and one year in Chillicothe, Ill.

Mr. Cruse is the son of James Cruse of Bloomington and was graduated with the class of 1926 at the Normal University, Normal, Ill.

He was art supervisor at Centralia for two years following his graduation from the Normal University. He spent a year at the Art Institute, Chicago. In 1934 he spent the summer in study in the University of Wisconsin in Madison. He has been a successful teacher in the William Hawley Smith school in Peoria for the last eight years. He has built a modern bungalow at 716 Ardmore Place in Peoria and has it all furnished for the reception of his bride.

**SONS OF LEGION, BOARD OF CONTROL CONDUCT MEETING**

A social meeting and luncheon enjoyed by the local squadron of the Sons of the American Legion was followed by a meeting of the Sons of the Legion board of control at the American Legion home last night. J. W. Larson was named chairman; A. A. Martin, vice-chairman; Robert Kaufmann, secretary; Frank Brannister, treasurer; L. A. Cain, in charge of the drum corps and W. H. Meyer in charge of meetings.

Martin was appointed by the board to fill a vacancy. The Sons of the Legion will meet the first Monday in each month. The proposed purchase of uniforms was discussed and drum corps practice will begin the first of the year.

## Cage Activities Lighten As Thanksgiving Vacation Nears; Shadows Are Still Undefeated

### Games Tonight. Routt at Murrayville. Chapin at Bluffs. Ashland at Waverly.

A bunch of Rockets will be set off tonight in an effort to dispel the Shadows of Murrayville high when Routt opens its drive to win basketball honors in the Little Six high school conference composed of Morgan county high schools, but unless the Rockets are more brilliant than the Flashes, the Shadows may rule the loop.

Last Friday night the Murrayville Shadows trounced the hitherto undefeated Franklin Flashes, leaving Murrayville in possession of first place in the league. Tonight they take on the Rockets, already humbled once at Pearl, but just beginning to find themselves.

Coach Wallace Baptist will use the same combination that went down before Pearl in the opening game, against the Shadows, with Perry, Beerup and Hanley as his big boys, and either of the Galties brothers, Gregory or Bill, and Shanahan, as his forwards.

Murrayville tramped on Chapin 47 to 26, and then rolled over a Franklin team that had not been defeated up to that time by a 42 to 27 score.

Caging activity is going to be light this week, in view of the Thanksgiving holiday. Chapin is slated to play at Bluffs tonight, and Ashland will invade Waverly for one of the games that will bring out the fans in big numbers.

The remainder of the schedule for the week:

**Wednesday Night.**  
Milton at Pleasant Hill.  
Chambersburg at Mt. Sterling.  
**Friday.**  
Ashland at Franklin.

**:FAN BREEZES:**

We have often wondered just what it means when the state high school association sends out a notice urging coaches to experiment with basketball along certain lines.

We notice that the Fox River valley has decided this year to do away with the center jump in basketball, in all of its conference games. This change is in Wisconsin and the change from the usual code is being made subject to the approval of the state high school association.

Possibly that is the way the whole thing should be handled. There is some experimentation done in the out-of-state leagues but coaches have been inclined to slight this phase of basketball development because the boys on the intra-mural teams usually are uncoached.

The ball will still be put in play in this conference by a jump at center after a technical foul or a double foul and at the beginning of each half.

With the Jacksonville-I.S.D. game coming up this Thursday morning, our mind harks back to the last time these two teams played. It was on Armistice Day, 1930, that the Tigers and Crimsons last met, according to our records, the Tigers winning 75 to 0.

That was the day that Coach Frank Walker received a large scroll before the game, bearing the names of hundreds of signers, who declared their faith in Walker's ability. That their faith has been well placed is vouched for in the fact that the Crimsons will again take his contingent out to meet the Tigers after six years of building.

Down at Roadhouse last Saturday, the Crimsons mentor said he felt quite up over his football team. The fact that Roadhouse was able to win only 20-0 was encouraging, he said, and the fact that they got two of their touchdowns on breaks of the game, made it even more so.

Roadhouse was going great, both coaches admitted, and the Crimsons were going just as good as they have during the recent weeks of the season.

There is one other very outstanding point about this year's eleven. Jacksonville has not lost a single player because of injury on the football field. One of the boys was lost to the team for the Roadhouse game because of having his tonsils removed, and he will be out of the I.S.D. game for the same reason.

Some of the boys got some stiff muscles out of the Roadhouse game, but they will be all right by Thursday morning. Coach Walker called off practice last night in order to give these injuries attention and to study the scout's report.

We heard some more interesting dope on Hillview's new basketball playing floor the other day from Miss Jeannette Lacey, who is teaching down there.

There were no funds to pay for the floor, it seems, but the students wanted the wood covering. They agreed to go out and work in corn-fields to get the money, and they have raised over \$250 already.

The students went into the fields after the corn shuckers had gone thru, and picked what the shuckers missed. You probably can recall the Biblical story of the gleaners, and these Hillview youngsters followed the same idea. We haven't heard whether the shuckers purposely missed a lot of corn.

Alabama and Louisiana State will put in their bid for a place in the Rose Bowl sun this week-end when they battle it out.

Hunters are reporting rather poor results from quail and pheasant hunting this season, which all goes to prove that the time is here for a lot of active work on the part of sportsmen's clubs.

We haven't heard of anyone bringing back the limit of quail, and some of the boys who know where the pheasants hide, weren't able to locate them the other day. Rabbits likewise seemed to have dined up for the day, although the rabbit population is somewhat less than it was last year.

Duck hunters, however, were able to knock over their limits when they got into the good places. The ducks didn't appear to be moving during the morning hours, but got to work in the afternoon.

**Wendt, Widseth are Big Ten Repeaters**

Make All-Star Team for 3rd Consecutive Season

Selection of the Big Ten all-star football team for the third consecutive year capped the brilliant collegiate grid careers of Ed Widseth and Merle Wendt today.

Conference coaches named Widseth, blond, husky Minnesota tackle, and Wendt, lanky, consistent Ohio State end, on the all-star team selected for the Associated Press. These players were the only repeaters. These players, Iowa's fast Negro halfback, did not reach his 1935 form and gained honorable mention.

The coaches picked four Northwesterners. They placed Fred Vanzo, whose blocking and defensive play featured the Wildcat drive to the Big Ten title, at

New York, Nov. 23.—(P)—Stocks tripped over fresh European troubles in today's market and numerous leaders fell back fractions to about 7 points.

While brokers attributed the downward movement principally to fears of repercussions over the Spanish war, some analysts expressed the opinion a corrective reaction had been overdue in view of the lengthy and virtually uninterrupted advance.

The Associated Press average of 60 issues suffered a net decline of 1.5 points at 6:58 the sharpest setback for a single session since Oct. 26, last. Transfers totaled 2,158,820 shares against 1,821,090 last Friday.

Business news was still on the favorable side, with extra and special dividends and earnings statements plentiful.

Notwithstanding an upturn of 2 of a point at 7:15 in the current week's steel mill operating rate, forecasts of further expansion of orders from motor makers and railroads, steel stocks were among the first to slide.

U. S. Steel was off 2 1/2 at 72 1/2 and Bethlehem yielded 2 1/2 at 68 1/2.

Increasing output of automobile and hopeful sales prospects failed to halt the downturn in motors. Chrysler was off 4 1/2 at 41 1/2 and General Motors up 2 at 69.

Allegations of a conspiracy between the U. S. and the British to force the death of O. P. Van Sweringen, but other rails not in the "Empire" also were in supply.

Utilities, on the whole, were fairly resistant, not having had the advance of other departments. The majority, though, were behind minus signs at the finish.

Commission houses with foreign connections reported considerably more selling of American securities from abroad.

**Prices Steady In Livestock Trade**

Chicago, Nov. 23.—(P)—Hogs developed a two-way trend today as commission men sold the second largest supply of the year. Holding steady in the early part of the session, heavier butchers later sold strong to 10 cents higher while lighter weights were weak to 10 cents lower. Top was \$9.80.

Heavy supplies and increasing competition of poultry were two important bearish factors affecting all branches of the livestock trade but prices were steady. Livestock men attributed the steady tone in hogs as well as cattle and sheep in part to packers' efforts to accumulate animals in view of the Thursday holiday.

There was no change in wholesale pork loin and beef carcass prices but reports from dressed market indicated demand was good.

Yearlings and light steers were steady to strong. A top of \$12.15 matching the nine-months peak touched several times recently. The liberal supply of medium weight and heavy steers, however, moved slowly on a steady to weak basis.

**Farm Bureau Man Is Gored to Death by Bull**

Arthur Kane County Farm Bureau member, died Thursday afternoon after being gored to death by a Holstein bull. Mr. Howard had entered the bull's pen with the intention of leading him outside when the 2,200 pound animal turned on him, reports the Illinois Agricultural Association.

Mr. Howard won the national award last year for the highest butterfat production in Class C, that is, cows milked twice a day. His Holstein herd averaged 521 pounds of butterfat. His best cow produced 736 pounds of butterfat. Mr. Howard attributed his success to 25 years of constant testing, culling and eliminating poor producers from his herd.

The well-known Kane county dairyman is survived by his widow and four children. Robert, 25, a cow tester in Lake county; Ralph, 20, a student at the University of Illinois; Dorothy, 23, a rural school teacher near Dundee; and Arthur, Jr., 13.

**More Mules Wanted In Southern States**

A program to expand production of mules in southern states is reported by the Horse and Mule association, of America. With credit extended by the Production Credit association, 600 fillies have been sold to 4-H club boys in Georgia, and arrangements have been made to breed these to jacks for production of mules. A good demand for mules has resulted from shortage there, the association reports. The greatest interest in Illinois is the baby beef project for 4-H club members.

**Elwood 4-H Girl Wins Trip on 7-Year Record**

Ether Palmer, 18, of Elwood, assisted by Mary McKee, specialist in girls' club work at Urbana, as the year's most all-around club girl in Illinois wins an all-expense trip to the 15th National Club Congress to be held in Chicago, Nov. 27-Dec. 5.

She has been a club member seven years, during which she completed projects in cooking and sewing, and served her club as officer every year. For the past three years she has been a junior leader. The value of her products made in club work is \$19.20, and she won \$14.60 in prizes on exhibits at local and county fairs.

The girl will compete with other

## Farm and Rural Interest

**District Tryouts For Rural Musicians Will Be Held at Winchester; IAA Convention Plans Under Way; More Mules Wanted in South; Turkeys Going to Market**

First step in preparations for the 1937 Illinois rural and drama tournament to be held at the University of Illinois College of Agriculture, in connection with Farm and Home Week, January 11 to 15, will be taken November 30 with the completion of ten district meetings of farm and home advisers, county chairmen and rating judges.

Delegates at these meetings will represent each county in the state, according to E. H. Regnier, associate in rural sociology extension, who is in charge.

Details for district tryouts are arranged at the preliminary district meetings which have been held at Pontiac, Yorkville, Mt. Carroll, Moline, Winchester, Effingham, Lincoln, and Sparta. Meetings are also scheduled at Golconda, November 24, and at Sullivan, November 30.

As a preliminary to the state music and drama tournament, county tryouts are first held to select the one-act play group, men's quartet, mixed quartet, women's trio and orchestra worthy of appearing in the district tryouts, according to Regnier.

From the ten district tryouts four of the most outstanding one-act play groups, quartets, trios and orchestras are selected from over the state to compete in the state tournament. In the county and district tryouts, the units do not compete against each other, but are rated according to the merits of their performance. Farm and home advisers report that county tryouts have already been held in some counties.

Last year the Winchester Women's club, of Scott county, won the one-act play contest, the Lanark community of Carroll county took home state honors on its men's quartet, the Fort City home bureau unit from Mason county won the mixed quartet competition, the Effingham ladies' quartet of Effingham county was awarded top honors in the women's quartet contest and the Long Point community of Livingston county ranked first in orchestra competition.

**125 Reserve Rooms For IAA Gathering**

Spurred on by improved markets for farm products and rising income, organized Illinois farmers are getting ready for the biggest annual convention since pre-depression years, according to the Illinois Agricultural Association.

With 1250 reservations already in for its meeting in Chicago, Jan. 27-28-29, the IAA is preparing for a record crowd the last week in January. Morgan county will send a good delegation to the meeting, according to Farm Adviser W. F. Coolidge.

The main sessions of the three-day gathering will be held in Chicago's beautiful Civic Auditorium located just west of the financial district. The LaSalle and Morrison hotels will be headquarters.

Tentative plans being developed by President Earl C. Smith, and the Board of Directors, provide for a list of outstanding speakers of national prominence. A series of open forums for members on the afternoon of the second day is being considered. At these group meetings, members would be given the opportunity to express their opinions on Association policies and activities as well as on leading questions of general interest to farmers.

The girl will compete with other

central state champions for regional honors, and if successful will be a contender for one of three cash college scholarships of \$400, \$300 and \$200, given by Montgomery Ward, sponsor of the contest, together with Chicago trips and county medals.

**Have Future Farmers To See International**

Henry Stelter, a member of Havana chapter of Future Farmers of America, has entered his calf "Jim" in the junior feeding contest at the International Livestock exposition to open in Chicago on Nov. 28. Twenty club members under the direction of Eldon Rutherford, agriculture instructor of the Havana Community High school, will visit the international, the stock yards, packing plants and points of interest around Chicago.

**Chenab 4-H Boy's Pigs Win \$107 and Chicago Trip**

Illinois' 4-H club champion for the year, Herman O. Timm, 20, of Chenab, raised and finished 19 porkers in seven years of club work. Every year he exhibited the best ones at local shows and has won \$107.00 in prizes. At the state fair where he showed for the first time he won reserve champion barrow. Sales return on his pigs is certified at \$1,673.50.

The boy has participated in various activities and served his club of 19 members in all of its offices, including assistant leadership three years. For his outstanding record E. I. Pilchard, state specialist in junior club work, has awarded him the Armour educational trip to the 15th National Club Congress to be held in Chicago, Nov. 27-Dec. 5. The boy will be one of 50 of the year's outstanding clubsters in the state's delegation at the Congress.

**Illinois Farmers Ready to Market 500,000 Turkeys**

Illinois families that plan to have turkey for Thanksgiving and Christmas dinner will find a half million well-fed Illinois turkeys on the market, according to H. H. Alp, poultry extension specialist, College of Agriculture University of Illinois.

Argentine Crop  
Affects Grains

Chicago, Nov. 23.—(P)—Decidedly enlarged estimates of the Argentine wheat crop now being harvested did much to make all grain prices average lower today.

Rallies at times resulted from threatening European political developments, but sustained new speculative demand for wheat futures lacked volume. Apparent indifference of the Liverpool wheat market in the face of warlike reports had a wet blanket effect on traders friendly to higher prices.

A widely known Chicago export expert touring in Argentina cabled that the 1936 Argentine wheat yield will total 260,000,000 bushels. This contrasted with previous forecasts by other authorities indicating the production would be about 20,000,000 bushels less.

Wheat closed irregular, 1/2 of a cent lower to 1/2 higher than Saturday's finish. Dec. 116 1/2-117, May 115 1/2-116, July 104 1/2-105, corn unchanged to 1/2 down. Dec. 105 1/2-106, May 99 1/2-100, July 95 1/2-96, oats 1/2 off, Dec. 45 1/2-46, and rye 1/2 up, Dec. 95 1/2-96. Provisions results were unchanged to an advance of five cents.

Not only were Argentine wheat crop estimates increased, but prospects pointed to curtailment of Canadian wheat exports in December and January, sharper competition from Argentina and Australia being looked for, with closing of St. Lawrence ports for the winter.

July wheat, representing the 1937 domestic crop, displayed independent firmness, and at \$1.04 outdied fractionally the season's previous peak price, but toward the last fell back somewhat.

Corn futures for deferred months reached new high price records for the year, but the market gave way when wheat turned weak. Receipts of corn today were somewhat larger than of late.

No. 5 yellow corn sold here today at as much as 9 cents a bushel under December contracts. Some handlers said that at this discount it should begin to attract elevator interest.

Oats eased with corn. West reported a hoist in the rye market. Provisions borrowed firmness from hog values.

**Chicago Livestock**

Chicago, Nov. 23.—(P)—(U. S. Dept. Agr.)—Hogs, 36,000; including 10,000 direct; butchers above 190 lbs. strong to 10 higher than Friday's average; lighter weights weak to 10 lower; top 9.80; bulk 150-180 lbs. late 8.50-8.75; desirable sows mostly 9.00-9.25; shippers 2.00; estimated holdover 5,000.

Cattle, 17,000; calves 2,500; yearlings and light steers steady to strong; typical yearlings scaling 1,050 lbs. downward, very scarce; top 12.15; several loads 11.75-12.10; medium weight and light steers in very liberal supply steady to weak; rather slow with bulk at 10.00-11.25; best 1,300 lbs. averages 11.75; 1,400 lbs. 11.25; all heifers firm; beef cows 10-15 higher; cutters cows strong to shade higher; bulls strong to 15 up; and vealers fully steady; outside on weighty sausage bulls 5.35; best heifers 11.50; short fed heifers 5.00-7.00; most of these being rather grassy; \$4.25-11.00.

Sheep, 5,000; not yet established; packers talking lower; small lots choice lambs to city butchers steady at \$9.00; indications steady on sheep.

## State Patient Is Killed by Jumping In Front of Truck

Tragedy Occurs When Truck Starts to Unload Coal; from Hancock Co.

Isadore Metternich, 54, was killed at the Jacksonville state hospital about 2 o'clock Monday afternoon when he plunged beneath the rear wheels of a truck loaded with coal that was driving up to the boiler house.

A jury summoned by Coroner E. O. Sample held an inquest shortly after the tragedy and determined that Metternich came to his death from a fracture of the skull and internal injuries received when hit by the rear wheels of a coal truck, and that he plunged under the wheels with suicidal intent.

E. L. Dunn of Carlinville, driver of the truck, which is owned by the Lott & Co. Co. of Carlinville, testified that he was driving up to unload his truck containing ten tons of coal. He saw Metternich with other patients to one side of the driveway, but did not see him go under the truck.

Dunn said he was driving very slowly. He heard someone shout, and put on his brakes. He felt the impact of the body as the truck stopped. Metternich was dragged about three feet, but the wheel of the trailer did not run over him.

Edgar W. Morris, 1320 Lincoln ave., attendant in charge of the coal detail, said that Metternich was using a wheelbarrow to haul slack. He had set his barrow down by the slack pile and was watching the truck. As the rear of the trailer came even with him, Morris said, Metternich darted under the wheels and grabbed one of them. Morris was some thirty feet from the patient when the accident happened.

Dr. Roy Harrell, member of the hospital medical staff, said he was summoned to the scene of the tragedy and examined Metternich. He found a fracture of the right side of the skull, several fractured ribs and a crushing injury to the chest.

The coroner's jury consisted of Henry Ruestmeyer, foreman, E. Co. Hansen, E. C. Rutherford, Loren Lovell, Lloyd Massey and Michael J. Crowe.

Metternich was committed to the state hospital from Carthage Hancock county, June 28, 1934. He was born Sept. 16, 1882. He was a farmer by occupation.

## Accident Victims Of New Berlin Recover

Charles Washburn Returned Home; Wilcox Is Still In Hospital

New Berlin, Nov. 23.—The condition of Charles Washburn, who was in the crash in Altoon Wednesday with Charles Wilcox, is encouraging, and is at home being kept quiet, while Mr. Wilcox is still in the hospital in Altoon, not being able to be moved, but is resting.

Miss Wilma Roesch was a Chicago visitor several days last week.

A. E. Washburn had the misfortune to fall off of a wheel barrow this week, breaking two of his ribs, from which he has suffered severely.

Mr. and Mrs. John Sullivan are the parents of a son born at St. John's hospital Monday.

The Reading Circle met at the home of Mrs. James Colvin Wednesday.

Mrs. John Hensley drove to Macon Wednesday, taking home Miss Carrie Fink who makes her home at the Eastern Star home and who has been her guest for the past three weeks.

Pete Cole, who has been at Great Lakes fall, is home for a few days on a vacation.

Mrs. W. C. Coons entertained at dinner Wednesday evening. Her guests were Mrs. Arthur Glasgow of Bethany, Mr. and Mrs. Otis King and Mr. and Mrs. Russell King.

The Bates-New Berlin Missionary society that was to have met with Mrs. Charles Washburn Thursday was postponed on account of the accident of Mr. Washburn which was hurt in an automobile accident Wednesday.

Reports from Mrs. Marshall Wilcox, an old time resident of New Berlin, but now living in Springfield, are that she is in the hospital at that place in a serious condition.

Harold Hammer has accepted a position with Mac's clothing store in Jacksonville and his friends here will miss him.

## Jacksonville Keeps Up Crusade to Get Speech Tournament

Decision of Place Will Be Made Next Month; Would Attract 900 Students

Although the place of the 1937 national speech tournament will not be selected until the executive council of the National Forensic League convenes in Chicago next month, Jacksonville school authorities and the Chamber of Commerce are keeping up an active campaign to land the big debate meet. Bruno E. Jacobs of Ripon College, Ripon, Wis., national secretary of the league, is expected to come here within the next two weeks to investigate local facilities for the tournament.

Harold E. Gibson, coach of the Jacksonville debate team, is making an active effort to secure the meet.

Mr. Gibson has written officials of a number of colleges, asking if they will furnish judges for the contests. Yesterday he received favorable replies from Eastern Teachers' Normal at Charleston and from Lincoln College, while Illinois and MacMurray Colleges of this city already have pledged support.

Jacksonville is one of three cities pushing demands for the national tournament to be held the first week in May, Sioux Falls, S. D., and Minneapolis, Minn., being the other contenders. This city is believed to have an excellent chance of securing the tournament, as officials of the league are said to favor a town east of the Mississippi river.

Only cities with active and successful speech departments in their high schools are considered as a site for the tournament, which is in Jacksonville's favor. The local high school is the only one in the country that has qualified teams for the national meet six consecutive years.

Jacksonville debaters captured fourth in the national speech tournament at Topeka, Kansas, and at Kent, Ohio. The tournament last year was held at Oklahoma City.

The national tournament next spring will attract an attendance of 900 students, 150 judges and a large number of coaches, making a gathering of some 1,200 persons. It is of the five days duration, and on the fifth day the program is broadcasted by radio.

Because of the magnitude of the meet and its national importance, Jacksonville High school and community leaders are making an especial effort to secure the tournament.

## 50 J.H.S. Dramatic Club Members Hold Banquet at School

Thanksgiving Event Draws Large Crowd; Program Followed by Dance

Members of the J. H. S. Dramatic Club gathered in the school cafeteria last night and held a Thanksgiving banquet. More than 50 students were present, and a rousing good time was enjoyed. The cafeteria dished up a real Thanksgiving dinner with everything from turkey to cranberry jelly to prepare everyone for a novel program of after dinner speaking.

Elsworth Black served as toastmaster and presided over a program in which four students had as their subject three letters from the word "Thanksgiving." Athena Geanetos spoke on "Tha." Ed Newport had "nks." Helen Johnson reported on "giv." And Joe Baxale finished up with "ing." The subjects are nonsense and the speeches were appropriate and clever in each case.

Following the program dancing was enjoyed.

Miss Frances Brown is faculty adviser and director of the club and Emily Walls is the president. Those in charge of the banquet were as follows: Betty Brown, chairman, Delphia Pine, Frances Coons, John Self, Susan Downs, Art Moxon, Ardene Black, Betty Anne Green, Mary Kay Hardisty, and Helen Mutch.

The menu for the dinner boasted the following tasty items:

Tomato juice with Ritz wafers

Baked Turkey with dressing

Mashed potatoes Gravy

Cranberry jelly

Vegetable Salad

Hot Rolls Butter

Steam Pudding Sauce
